Training your pet is essential to a long and happy relationship. Pets that know how to listen to a handful of commands such as stay, sit, heel, etc., are easier to take places, interact with other people and other animals, understand "no", and respect property. Clicker training is a very non-threatening method of training dogs. Sign up today for the fundamentals training course and realize your dogs potential!

Our Animal Behavior Manager, Karen Buttenschon will help education you on the best and most effective methods of dog training while demonstrating these methods with your dogs assistance. After completing this basic fundamentals class, advanced and private lesson are also available.
